Professional Experience

PhD Candidate in Applied Mathematics

Eindhoven University of Technology (TU/e)

Oct. 2024 - Oct. 2029

Eindhoven, the Netherlands

- Research focus on Probability under the supervision of Prof. N. Litvak at the Department of Mathematics and Computer Science in the SPOR Cluster.

Mathematics and Physics Substitute Teacher

Liceo scientifico G.B. Morgagni

Jan. 2023 - Jun. 2023

Rome, Italy

- Taught Mathematics and Physics at high school level for one semester. Member of the *Maturità* commission.

Education

Master's degree in Applied Mathematics & Data Science

Sapienza University of Rome

Gen. 2022 - Jul. 2024

Rome, Italy

- **Coursework:** Advanced probability, Stochastic processes, Statistical Mechanics, Combinatorics and Graph Theory, Numerical linear algebra, Computational mathematics, Theory of algorithms, Deep Learning.
- **Final mark:** 110/110 *cum laude*

Bachelor's degree in Physics

Sapienza University of Rome

Sep. 2018 - Dec. 2021

Rome, Italy

- **Coursework:** Computational physics, Mathematical logic and computability, Machine learning, Probability and Inference, Vector Analysis, Linear Algebra, Classical and Modern physics.
- **Final mark:** 110/110

Highschool Diploma

Liceo scientifico G.B. Morgagni

Sep. 2013 - Jul. 2018

Rome, Italy

Projects

- Developing a trading bot in Python, using momentum strategies and real-time market data.
- Developing a platform leveraging AI to scrape websites for academic conferences.
- Built a transformer model with PyTorch to solve simple mathematics questions.

- Wrote a Python package to simulate random loop models for my Master's thesis.
- Built a machine learning model with Keras to classify quark flavour based on experimental calorimeter data.
- Developed a Telegram bot in Python for monitoring and managing an Ethereum mining rig.
- Wrote a linear SAT solver for the 2-SAT problem in C for my Bachelor's thesis.

Other Experiences

- Member of Sapienza's cyber security Team, Cyberchallenge.it 2022.

Skills

Programming languages: Python, Java, JavaScript, C, C++, C#, R, $\text{\LaTeX}$, Assembly, GD Script.

Frameworks: PyTorch, Scikit-learn, Pandas, TensorFlow, Keras, React.

Spoken languages

- Italian (first language)
- English (C1)

Other interests

Classical and Jazz Music, Piano, Calisthenics, VR & AR, Reading, Anime.
