

Lorenzo Gregoris

+39 3339961511 ✉ lorenzo.gregoris@gmail.com
🌐 website 📍 Eindhoven, the Netherlands

Professional Experience

Eindhoven University of Technology (TU/e)

Eindhoven, the Netherlands

Oct. 2024 - Oct. 2029

PhD Candidate in Applied Mathematics

- Research focus on Probability under the Department of Mathematics and Computer Science in the SPOR Cluster.

Liceo scientifico G.B. Morgagni

Rome, Italy

Jan. 2023 - Jun. 2023

Mathematics and Physics Substitute Teacher

- Taught Mathematics and Physics at high school level for one semester

Education

Sapienza University of Rome

Rome, Italy

Master's degree in Applied Mathematics & Data Science

Feb. 2022 - Jul. 2024

- **Coursework:** Advanced probability, Stochastic processes, Statistical Mechanics, Combinatorics and Graph Theory, Numerical linear algebra, Computational mathematics, Theory of algorithms, Deep Learning.
- **Final mark:** 110/110 *cum laude*

Bachelor's degree in Physics

Sep. 2018 - Dec. 2021

- **Coursework:** Computational physics, Mathematical logic and computability, Machine learning, Probability and Inference, Vector Analysis, Linear Algebra, Classical and Modern physics.
- **Final mark:** 110/110

Other Experiences

- Member of Sapienza's cyber security Team, Cyberchallenge.it 2022.

Projects

- Built a transformer model with PyTorch to solve simple mathematics questions.
- Wrote a Python package to simulate random loop models for my Master's thesis.
- Built a machine learning model with Keras to classify quark flavour based on experimental calorimeter data.
- Created a linear SAT solver for the 2-SAT problem in C for my Bachelor's thesis.

Skills

Programming languages: Python, Java, JavaScript, C, C++, C#, R, $\text{\LaTeX}$, Assembly, GD Script.

Frameworks: PyTorch, Scikit-learn, TensorFlow, Keras.

Spoken languages

- Italian (first language)
- English (C1)

Other interests

Classical and Jazz Music, Piano, Calisthenics, VR & AR, Reading, Anime.
